Introduction to
vacation assignment

Overview

Engaging your kids

Planning

Dear Parents

GREETINGS FROM BHAVAN'S ADARSHA VIDYALAYA, KAKKANAD

The process of learning is never-ending, may it be at home or school, and what keeps us excited is the mysterious things around us that kindle the spark of curiosity in each one of us.

Now that it is vacation time and children are at home, let's open spaces for curious minds to explore through a plethora of tasks that can make learning joyful. Be the cool zing thing this summer by integrating your thoughts into actions.

GENERAL INSTRUCTIONS

A few guidelines are listed below to gift your ward a happy vacation that is more entertaining

- Ask your ward to set a timetable so as to include all activities assigned for the day, like indoor and outdoor activities, watching television, playing with friends, studying, etc.
- Encourage your child to do any creative act that they are good at, which may be photography, videography, blogging, mehandi designing, etc., and at the same time, have control over screen time.
- Share the video clip (2 minutes) of the activity done by your ward in the class group so that others are inspired and teachers appreciate the student's work.

Engaging your kids

- Kindly encourage your child to read some motivational and resourceful books, newspapers and focus on his/her health with some regular exercises and meditation.
- Motivate your ward to have some practice writing on a regular basis to boost his/her writing skills as well as enhance innovative ideas.

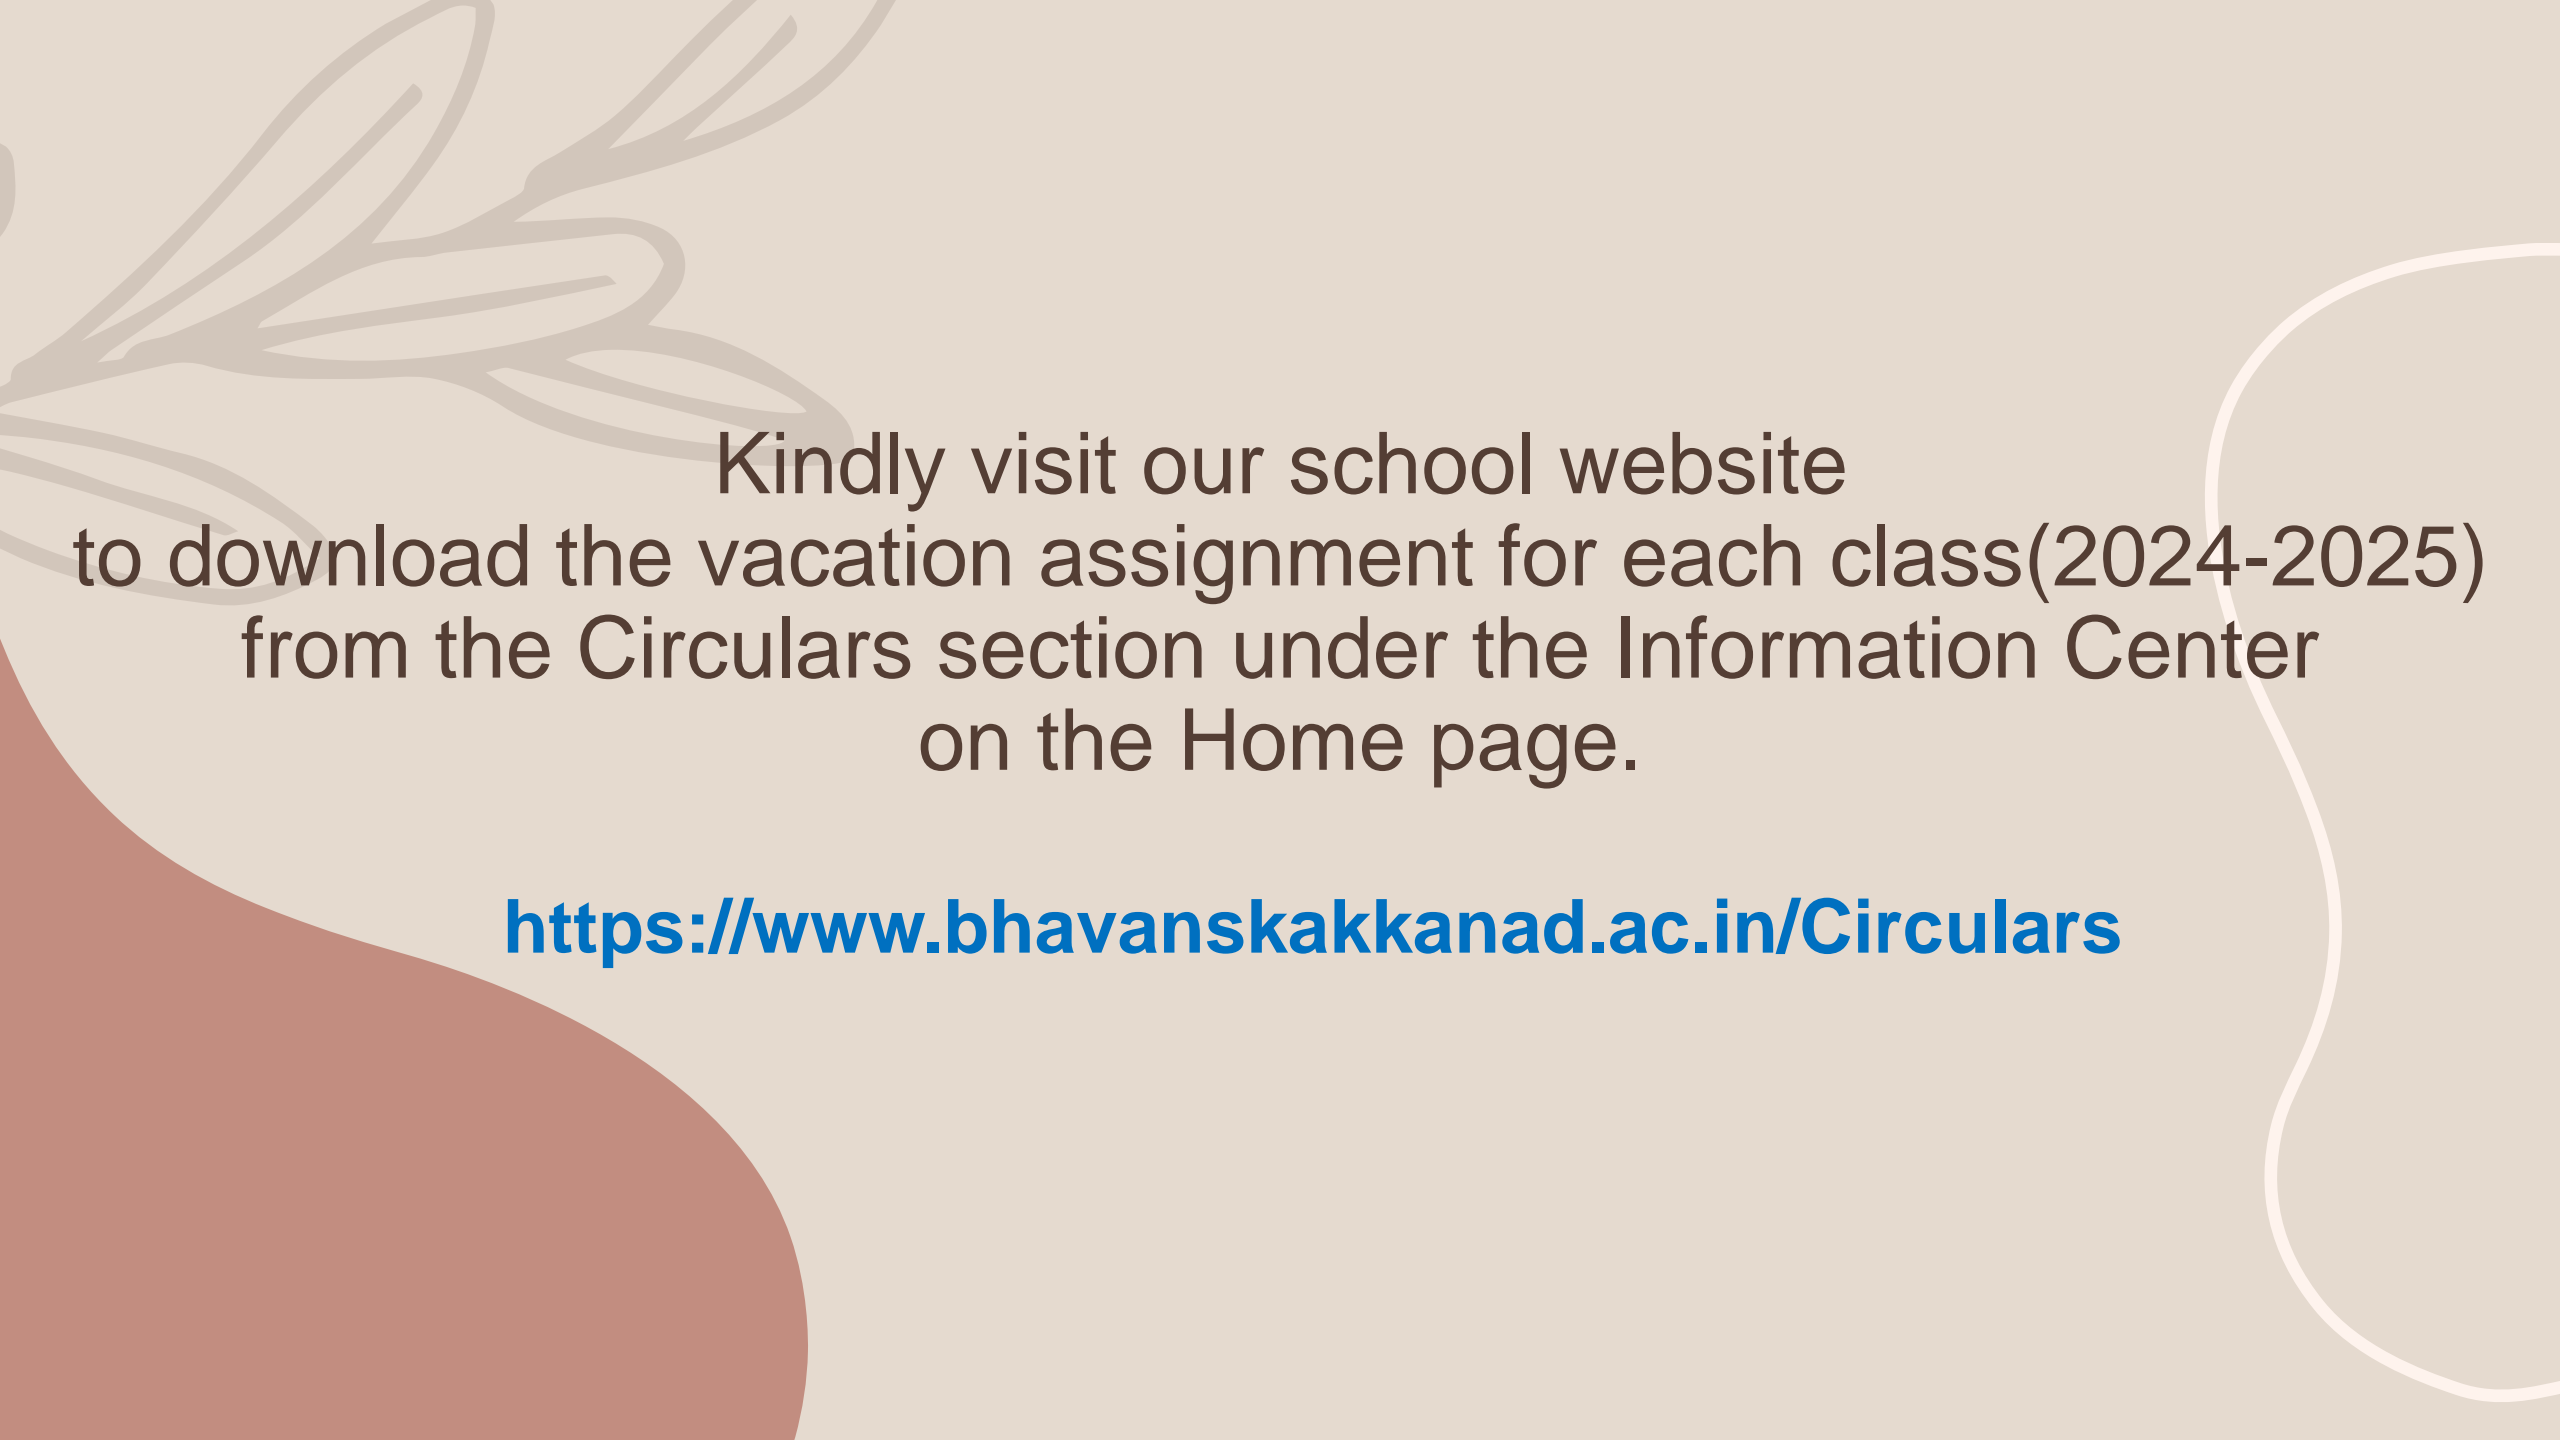

Tips for your kids.....

- Don't keep anything to the last
- Make a to do list
- Engage yourself everyday
- Be smart in managing your time
- Take suggestions from your parents and siblings if needed
- Set short term goals to finish your projects
- All projects are integrated to a thematic topic hence the entire project is inter- disciplinary
- Keep reporting to your friends in the group about your findings and accomplishment. This will help others also to take up the project
- All projects to be submitted as hardcopy when the school reopens
- Remember your work will be recognized and will fetch you marks for your internals next year
- Have a productive holiday in a relaxed way
- Enjoy learning through committed self learning

During this vacation, let us
together build the self-esteem of
your child in a democratic way.

Kindly visit our school website
to download the vacation assignment for each class(2024-2025)
from the Circulars section under the Information Center
on the Home page.
